Installation Notes (Scope of work, special requests by owner/builder, difficulties, exclusions etc.):
--

This is to certify that the Nasahi System detailed above has been installed in accordance with the current Nasahi Design and Installation Guide and is within the standard building practices suitable for the above project. I certify that the above installation work was carried out by me or under my supervision or I have inspected and tested the work started by another practitioner. Any further work was carried out by me or under my supervision

Signed:	Date:
----------------	--------------

A misstatement of fact, including an omission, is an offence under the Building Act placing all liability on the installer.

IMPORTANT NOTE TO INSTALLERS: This certificate must be given to both the builder/customer and to Nasahi[®] for the system to be warranted by Nasahi[®].

IMPORTANT NOTE TO CONSUMER: This compliance certificate carries insurance to protect the consumer against defective work by the installer. You should retain this certificate for seven (7) years as evidence of your cover.
